PATIENTS DRINK MORE

Better hydration is everyone's goal. Customers have told us their patients increased their fluid intake by 20% to 100% when they switched to SimplyThick®!

OBVIOUS CHOICE

People with swallowing problems prefer SimplyThick over other thickeners. The reasons are simple: no graininess, no aftertaste, and better tasting beverages.* In addition, beverages look like they should.

PREPARING SIMPLYTHICK

SimplyThick's pre-measured packets allow for fast and easy preparation of beverages anywhere. Each packet produces either Nectar (Level 2 Mildly Thick) or Honey (Level 3 Moderately Thick) consistency. Two Honey packets produce Pudding (Level 4 Extremely Thick) consistency.

The SimplyThick brand thickener dispenser bottle is designed for simple, quick use in situations that require maximum flexibility in thickening. Simply add the appropriate amount of gel and mix.
